How to create a sub web in Frontpage

To create a sub web in Microsoft Frontpage 2000 or 2002:

1. Open your FrontPage Web
 2. Create a folder that has the name of your web
(Note: NO SPACES ALLOWED, SPACES WILL DAMAGE YOUR WEB SITE! Use numbers, letters and underscores "_" only.)
 3. Place any files you want in your sub web in the folder, or leave it empty.
 4. Right - Click on the folder and choose "Convert to Web" off the list
 5. Wait for FrontPage to finish working (it may take a minute or two)
- A folder with a little "earth symbol" will appear in your web site.

To access your sub web:

You can open the web site, then double click on the sub web folder.
