LexiConn Knowledgebase

FrontPage 2002 Flash Tutorials

Below are six Flash tutorials for FrontPage. These visual guides will show you step-by-step how to use FrontPage's most common features. You will need FrontPage extensions enabled for your account in order to use FrontPage. If you do not have the extensions enabled already, E-Mail mailroom@lexiconn.com for details.

http://support.lexiconn.com/tutorials/frontp_publish_http_remote.htm - Tutorial detailing how to publish your web pages to your LexiConn account (using the HTTP method).

http://support.lexiconn.com/tutorials/frontp_publish_ftp.htm - This tutorial describes how to publish your web pages with FrontPage using the FTP method.

http://support.lexiconn.com/tutorials/frontp_deletefile_server.htm - This tutorial will show you how to delete files from your hosting account with FrontPage.

http://support.lexiconn.com/tutorials/frontp_formtoemail.htm - Learn how to create a form for use on your web site.

http://support.lexiconn.com/tutorials/frontp_ppdirectory.htm - Learn how to create a password protected directory (subweb).

http://support.lexiconn.com/tutorials/frontp_change_pw.htm - This tutorial explains how to change your FrontPage password.
